

GUNTUR MUNICIPAL CORPORATION

"THE GUNTUR WALL ART" Project has been initiated by the students of Model Art Academy and Arena Animation, after being inspired by the Mumbai Wall Project which was all over in the news a few months ago.

What is the Guntur Wall Project?

We all know the fate the public walls meet with, they are totally abused by posters and writing for movies, elections, advertisements etc. This project aims at beautification of the walls and at the same time brings awareness in the general public, especially the youth of our city to be more observant about the space we use and move within and here we can put to use these walls to convey our thoughts to the public in the form of art. It is an initiative to bring life to the city and generate a positive feeling of belongingness among people who pass by it daily by adding color, form and texture and also convey a message.

Who can participate?

Anyone who is above the age of 18 can join in and play an active part in whatever way you would like to explore. The basic idea is to create awareness in everyone's mind and since art is one of the stronger medium to express oneself; this project gives an opportunity to each person to create a communication. You don't have to be an artist to participate.

What you have to do:

Anyone who is interested in participating has to put your thought on an A4 size paper and send to commissioner@gunturcorporation.org.

Some dos and don'ts

There should not be any advertisements, political or religious messages, foul & obscene language. You can mention the name of the institution or organization you belong to or simply your names on the wall.
